1. Large underground storage tanks are located at the former Synthetic Fuel Factory at Blachownia (Blechhammer, Silesia).
2. Gasoline is being stored there as "MOB".
3. Consignments of gasoline always arrive by night at Kedzierzyn (Heydebreck). It is pumped by pipe-line from there to the storage tanks at Blachownia (Blechhammer). The last consignment of 57 cisterns arrived on 28 August, 1946. The train was officially designated for Bierawa, and it left in this direction on the morning of 29 August 1946.
